

LYRICS – PETER PERJES

Shadow and Light

Kid, Alessia

See what a mighty flame, but it burns in me the same
A blazing fire starts around me
The light flashing the night, let it always shine so bright
Shadow and Light dance together

Once I had a dream, on a night so long ago
The sky was torn by a star
I perceived the truth and the brilliance
Shadow and Light burn together all around me
The flame I can't control
And the wind is painting me sultry

I know its coming, `feel it closing in around me
I've got to break out, and show You how it feels

See what a mighty flame, but it burns in me the same
A blazing fire starts around me
The light flashing the night, let it always shine so bright
Shadow and Light dance together

Tell me what you see, reflected in my eyes
I think it will blind me
But we still got to know how it feels

See what a mighty flame, but it burns in me the same
A blazing fire starts around me
The light flashing the night, let it always shine so bright
Shadow and Light dance together

There was a night, when I dreamed so long ago
Soft steps so noiseless
I peek in silence, I peek in silence
All I want, this is how I've always seen it
Just you and me, as the light, we're free

See! burns in me the same
Fire starts around me

I know I am dreaming now

The light flashing the night, let it always shine so bright
Always shine so bright
Shadow and Light dance together

I know I am dreaming now

See what a mighty flame, but it burns in me the same
It burns in me the same
A blazing fire starts around me

I know I am dreaming now

The light flashing the night, let it always shine so bright
Shadow and Light dance together
