

LYRICS – PETER PERJES

The Silent Dance

Casanova, Guardian Angel

The silent dance, around the earth, we're deep within its cradle
Which carries us away to a new dance

I wonder what will be, What has never been before till now, let's just see!
Come along with me, Let me show you what you need to know for this mating dance
Until the end of the universe this silent dance will be around, You know one day,
Just comes and shakes your world, than you know, it's in your blood

You know there's still something more, It will be worth waiting for
Careful don't call out its name, The wonder is real, believe and see
It can find you still, the silent dance, What you've wanted for so long

*It was still a cold and bitter Russian winter but I was awoken by songbirds as on a new spring day.
Morning had broken. I knew I had to go. I looked back once more, but the soft spring wind blew all my
sighs away.*

*It was still sultry and sizzling
But then my Latin summer was doused by stormy skies rolling in overhead.
I looked back once more, but then the wild face of Autumn chased all my sighs away.*

*And each time I thought there was nowhere else to go, the crossroads always gave up their precious
guarded secrets.
I stood alone in the quiet of a new dawn and I just knew there was a place with no boundaries, no rules,
no words.
Then a sudden gust of wind lifted me up, and carried me over mountains and valleys. so I let it blindly
lead me to my destiny.*

There is no time and space in this silent dance Holdin` out, The promise of Eternity,
Now you know it`s in your hands (it) will take us higher so be here when it calls
And when we dance, we dance, we wanna give it all
And when we rise, we know, we`ll never ever fall We just hide in this silent dance

You know there's still something more, It will be worth waiting for
Careful don't call out its name, The wonder is real, believe and see
It can find you still,

You know there's still something more, It will be worth waiting for
Careful don't call out its name, The wonder is real, believe and see
It can find you still, The silent dance What you`ve wanted for so long
The silent dance
